## endura® Grease Compact Interceptor

*The best things come in small packages!*

*The latest additions to the Endura family provide improved performance in a smaller footprint.*

The line now includes 7gpm & 10gpm models. All models use a development of our patented baffle system to enhance separation performance at low flow rates. Based on end user feedback, these units also feature the new **EZ-Clean exterior tank profile**, a non-ribbed section for the lower two inches.

Sewer authorities and building owners spend millions of dollars every year combating grease accumulation in plumbing systems.

Grease accumulation causes sewer blockages and overflows. These overflows are a health risk to you, your employees, your customers and the general public. Injection molded in engineered thermoplastic, the Endura® Grease Interceptor provides restaurant operators the best value and performance on the market today.

GREASE MANAGEMENT

# Compact Grease Interceptor

Contractor shall install a Canplas Endura® Grease Interceptor, Part No. \_\_\_\_\_. An accessible flow control with a rate of \_\_\_\_ gpm will also be installed in accordance to manufacturer's instructions. The unit shall be comprised of engineered thermoplastics to withstand operational temperatures up to 220°F (104°C) and incorporate a lid with air tight seal and the capability of supporting 300 lbs. (135 Kgs). The unit will be supported by a 10 year manufacturer's extended warranty. The grease interceptor shall be certified to the current version of the PDI-G101 or CSA B481 standards and where locally applicable to ASME112.14.3 and IAMPO listing will apply. Contractor shall provide two mechanical joint couplings to connect the grease interceptor.
